

RULES

TITLE: COLORS & SHAPES

OBJECT: There are four games you can play and hence there are four ways to win.

1. SAME COLOR:

Be the first player to collect five cards of the same color.

2. DIFFERENT COLORS:

Be the first player to collect five cards with different colors.

3. SAME SHAPE:

Be the first player to collect five cards with the same shape.

4. DIFFERENT SHAPES:

Be the first player to collect five cards with different shapes.

AGE: 8 and above.

NUMBER OF PLAYERS: 2-5 players.

PLAY: Each player will get 5 cards from the deck. They will then exchange one card at a time until the first player collects 5 cards with the appropriate shapes and/or colors (that is same color, different colors, same shape, or different shapes).

WILDCARDS: There are two wildcards. These cards can be designated by the player in possession of them to be any color and/or shape they so choose.

PLAY OF THE GAME:

1. First determine which game to play:

-Same color/Different colors/Same shapes/Different shapes

2. Shuffle the deck of cards and distribute 5 cards to each player (facing down). Set extra cards aside. If you want to increase the level of challenge combine two decks of cards and add more players.

3. Players look at their cards and pick one to exchange. Place the exchange card on the table face down. Mix those cards with any remaining cards in the deck. Each player will now pick a replacement card from the deck.

4. Keep doing this until a player is ready to declare themselves the winner and reveal their cards.
